

RIVERODE CHUTES

One of the best investments in cattle handling equipment with unlimited uses.

DOUBLE DOOR CHUTE

- Allows complete access to animal
- Heavy Wall - 2 in. square galvanized tube frame
- Galvanized side doors constructed from 1.5 in. square tubing and 14 GA sheet steel

STD MODELS

- 7 ft. long x 27 in. wide
 - 8 ft. long x 30 in. wide
- Custom sizes on request*

Two doors on each side can be opened independently

Self closing adjustable spring latch

STD UTILITY CHUTE

Same features as the Double Door Chute except the side door on each side is a single unit.

PALPATION CAGE

An excellent addition to any chute. Either side door can be latched at the back to block the alley. It allows access to the animal in the chute and the opposite side of the alley and chute. The doors and frame are constructed of galvanized tubing.
Available in 27 in. and 30 in. widths.

HEADGATE

- Parallel neck bars prevent choking
- Low step over front exit
- Friction latch allows infinite settings
- Quick positive release
- Opening for front exit mounts easily to working chutes

HORIZONTAL SLIDE

The natural choice in any alley. The quick, easy action is quiet and safe for all animals. The all steel rollers have sealed bearings for years of maintenance-free use. It features a 2 in. square galvanized tubing frame and galvanized tubing gate. 27 in. and 30 in. widths are standard.
